Office Action Summary	Application No. 09/342,789	Applicant(s) CORISIS, DAVID J.	
	Examiner David E. Graybill	Art Unit 2822	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 July 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-11 and 14-39 is/are pending in the application.
- 4a) Of the above claim(s) 20-24 and 33-37 is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-11 is/are allowed.
- 6) ☒ Claim(s) 9, 14-32, 38 and 39 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 07 July 2005 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

The amendment filed 7-7-5 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is the negative limitation, "No electrical leads."

Applicant is required to cancel the new matter in the reply to this Office Action.

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the features of claims 14-19, 25-32, 38 and 39 must be shown or the features canceled from the claims. To further clarify, the drawings do not show the claim 14 embodiment comprising a paddle frame having no narrow common electrical leads for connection to a semiconductor device and paddle support bars, and the claim 27 embodiment comprising a paddle frame having no electrical leads for connection to a semiconductor device and paddle support bars. Also, the drawings do not show the claims 14 and 27 negative limitation, "the paddle support bars not used for electrical leads for the semiconductor die."

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior

version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended."

If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 14-19, 25-32, 38 and 39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the

relevant art that the inventor, at the time the application was filed, had possession of the claimed invention.

The undescribed subject matter is the claim 14 embodiment comprising a paddle frame having no narrow common electrical leads for connection to a semiconductor device and paddle support bars, and the claim 27 embodiment comprising a paddle frame having no electrical leads for connection to a semiconductor device and paddle support bars. To further clarify, in the specification, page 6, lines 8-9, applicant discloses that the paddle support bars 24, 28 are electrical leads for connection to a semiconductor die because they are capable of being used for the intended use as electrical leads for connection to a semiconductor die.

Claims 14-19 25-32, 38 and 39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claims contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The undescribed subject matter is the claim 14 embodiment comprising a paddle frame having no narrow common electrical leads for connection to a semiconductor device and paddle support bars, and the claim 27 embodiment comprising a paddle frame having no electrical leads for connection to a semiconductor die and paddle support bars.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14-19, 25-32, 38 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, the limitation, "a paddle frame having no narrow common electrical leads for connection to the semiconductor die," and "paddle support bars," are mutually exclusive because, as disclosed in the specification as cited supra, the paddle support bars are electrical leads for connection to a semiconductor die because they are capable of being used for the intended use as electrical leads for connection to a semiconductor die.

In claim 27, the limitations, "a paddle frame having no electrical leads for connection to a semiconductor die" and "paddle support bars" are mutually exclusive because, as disclosed in the specification as cited supra, the paddle support bars are electrical leads for connection to a semiconductor die because they are capable of being used for the intended use as electrical leads for connection to a semiconductor die.

Claims 1-11 are allowed.

Applicant's amendment and remarks filed 7-7-5 have been fully considered, are addressed by the rejections supra, and are further addressed infra.

Applicants remarks directed to the prior art rejections of claims 1-11 are deemed persuasive.

Also, applicant appears to assert that the claim 27 amendatory limitation, "that include one of being used as a lead and not being used as a lead," overcomes the 35 U.S.C. 112, first and second paragraph rejections of the claim. However, this assertion is respectfully deemed unpersuasive because it is conclusory and not probative.
